INDEX TO VOLUME VII

ACID, Adulterated, as a possible source of error in testing milk by the Babcock method, 361

Acid, total, and volatile, A quantitative determination of, in cows' milk, 74

Acidity, A cheese factory test for critical degrees of, 83

Acidity, natural, in milk, The relation of, to composition and physical properties, 468

Advanced Registry news reports, 207

American Dairy Science Association, Annual meeting 1923, 107

American Dairy Science Association, Committee appointments for 1924, 309

American Dairy Science Association members for 1924, 413

Amino acid, in cows' milk, A quantitative determination of, 74

Ammonia, in cows' milk, A quantitative determination of, 74

Annual meeting, American Dairy Science Association, 1923, 107

Anti-scorbutic potency of milk, The influence of pasteurization and diet of the cow on the, 370

BACTERIAL content of ice cream, The, 330

Bacterial flora of the "Kingston Cheese," Further studies on the, 555

BARTLETT, JOHN W., MEAD, S. W., and REGAN, WM. M. A study of the factors affecting the growth of dairy heifers, 440

BENDIXEN, H. A. Review of foreign dairy literature, 407, 530

BIERMAN, H. R., and DOAN, F. J. A colorimetric picric acid method for determining lactose, 381

Birth weight and gestation of dairy animals, A study of, 222

Blindness and other diseases in children arising in consequence of deficient nutrition, 1

BLOCH, DR. C. E. Blindness and other diseases of children arising in consequence of deficient nutrition (Lack of fat soluble A factor), 1

BORST, W. F., PIERCE, H. B., COMBS, W. B. The use of true and imitation vanilla extracts in ice cream, 585

BRAMAN, WINFRED W., KRISS, MAX, FRIES, J. AUGUST. On the protein requirement of milk production, 11

BREED, R. S. Agricultural bacteriology in Italy, France and England as seen by a tourist, 205

BRINTNALL, EARLE. The official test in the south and the preliminary milking, 393

BRODY, SAMUEL, RAGSDALE, ARTHUR C., and TURNER, CHARLES W. The relation between age and fat production in dairy cows, 189

BRODY, SAMUEL, RAGSDALE, A. C., TURNER, C. W. The effect of gestation upon lactation in the dairy cow, 24

BRODY SAMUEL, RAGSDALE, A. C., TURNER, C. W. The rate of milk secretion as affected by an accumulation of milk in the mammary gland, 249

BURROUGHS, LILLIAN C. The disposal of dairy wastes, 503

Butter, carbonated, Facts about, 484

Butter, Hand-separator-cream, The improvement of flavor and keeping quality of, 460

Butter, The relation between yeasts and moulds and the keeping quality of, 357

Buttermilk, Condensed and powdered, for dairy calves, 213

CALCIUM, magnesium, phosphorus and sulfur in dairy cows fed high and low protein rations, The metabolism of, 58
Calves, dairy, Condensed and powdered buttermilk for, 213
Calves, dairy, Studies in the growth and nutrition of, IX. The addition of tomatoes to a milk ration, 94
Calves, dairy, Studies in the growth and nutrition of, X. Self-feeding a grain mixture to young calves, 160
Calves, Yeast as a supplementary feed for, 421
Carbonated butter, Facts about, 484
Cheese, Kingston, Further studies of the bacterial flora of the, 555
Cheese making, Clarification of milk for, 524
Children, Blindness and other diseases arising in consequence of deficient nutrition, 1
Clarification of milk for cheese making, 524
CLARK, R. S. The correlation between change in age and milk production of dairy cows under other than official testing conditions, 547
Color of cow's milk and its value, The, 147
Colorimetric picric acid method for determining lactose, A, 381
COMBS, W. B., BORST, W. F., PIERCE, H. B. The use of true and imitation vanilla extracts in ice cream, 585
COMBS, W. B., and MARTIN, W. H. The effect of milk plant operations on the amount of cream rising on milk, 197
COMBS, W. B., MARTIN, W. H., and HUGGLAR, N. A. Clarification of milk for cheese making, 524
Committee appointments by sections for 1924, American Dairy Science Association, 309
Computation of feeding standards, True protein versus crude protein as a basis for, 154
Condensed milk, Sweetened, II. A comparative study of methods for determining total solids, 497
COPELAND, LYNN, and FITCH, J. B. Variations in amount of milk and percent of fat in the milk from different quarters of the cow's udder, 169
COPELAND, LYNN, and OLSON, THOMAS M. The influence of pasteurization and diet of the cow on the antiscorbutic potency of the milk, 370
Correlation, The, between changes in age and milk production of dairy cows under other than official testing conditions, 547
Cow, dairy, The effect of gestation upon lactation in the, 24
Cows, Dairy, fed high and low protein rations, The metabolism of calcium, magnesium, phosphorus and sulfur in, 58
Cows, dairy, The correlation between age and milk production of, under other than official testing conditions, 547
Cows, dairy, The influence of the stage of lactation on the production of, 255
Cows, dairy, The relation between age and fat production in, 189
Cream rising on milk, The effect of milk plant operations on the amount of, 197
Cream tests, Reading the fat in, 131
Crude protein as a basis for computation of feeding standards, True protein versus, 154

DAHLE, C. D., PALMER, L. S. Some factors affecting the keeping quality of whole milk powders, 40
